I specialize in creating clean, beautiful, and user-friendly websites utilizing valid, standards-compliant XHTML & CSS. I have over 5 years of experience in the design & development world, working with a variety of clients, from small to large. My qualifications include degrees in both Graphic Design and Web Technologies.

I am looking for an exciting career that will allow me to grow in this industry, where I can learn from others and work as part of a dynamic team to create innovative websites. My ideal position would be as a designer and front-end developer with room to grow.
